CYBER.ORG
THE ACADEMIC INITIATIVE OF THE CYBER INNOVATION CENTER

CYBER.ORG works to ensure that every K-12 student receives a cyber education.

## The nation has a critical cybersecurity workforce shortage.

Efforts to close the cyber workforce gap must begin in K-12 classrooms.

Cultivate State Partnerships

CYBER.ORG collaborates with academic, government, corporate, and non-profit partners in order to multiply impact in all 50 states

Develop Classroom Resources

CYBER.ORG provides curricula and cybersecurity classroom resources at no cost to K-12 educators within the United States and territories.

Our Approach

Supporting K-12 educators and students to build foundational cybersecurity awareness, cyber career awareness, and technical cybersecurity skills.

Support Student & Community Events

CYBER.ORG provides resources for out-of-classroom experiences that shape students' perceptions of cyber career pathways.

Lead Professional Development

CYBER.ORG instructors lead professional development workshops to improve teachers' competence and confidence in cyber topics.

Our Impact

▶ **25,000+** teachers
enrolled in CYBER.ORG content
from 50 states and 4 US territories

■ **3.4 million** students
impacted by CYBER.ORG content

as of August 2021

Our Goal:
Cyber Education for All Students

By ensuring that all students receive a cybersecurity education, we build a steady stream of cyber-literate students who are prepared for the workforce.
